Columbia University: Arts & Sciences
A&S Spring 2024 Standard Evaluation

Course:	MATHGU4155_001_2024_1 - PROBABILITY THEORY: MATHW4155_001_2024_1_183533
Instructor:	Ioannis Karatzas
TA:	Georgy Gaitsgori,Noah Bergam *
Response Rate:	14/26 (53.85 %)

1 - What are the strengths and weaknesses of Noah Bergam (discussion section leader, lab section leader, grader) as an instructor, and how might Noah Bergam's teaching be improved?

Response Rate	3/26 (11.54%)

- Noah is very helpful of giving tuitions of the homework questions.

- Great TA. Incredibly knowledgeable and nice.

- Noah, a veteran of the course, was great at giving the student perspective of the class. After all, Noah had done almost all of the homework problems himself at some point, and so was able to relate to the challenges they presented to us. He was also helpful in guiding us through the course, especially when it came to what material one should study the most.

2 - What is the overall teaching effectiveness of Noah Bergam?

Response Option	Weight	Frequency	Percent	Percent Responses	Means
Excellent	(5)	8	100.00%		5.00
Very Good	(4)	0	0.00%		
Good	(3)	0	0.00%		
Fair	(2)	0	0.00%		
Poor	(1)	0	0.00%		

Response Rate	Mean	STD	Median
8/26 (30.77%)	5.00	0.00	5.00
